

## CABLE BOLTS

**CABLE TRUSS SPLICE TUBE****Features**

- Block – ductile iron formed as one part
- Wedges – case hardened machine steel
- Fully pre-assembled with wedges held in place by retaining caps
- Proven design, tested and used extensively in the USA
- Curvature of the outlet minimises stress concentration of the cable at the bend
- Less wastage compared to traditional tension blocks
- Available in both 15.2mm and 18mm sizes

**Dimensions and Packaging**

Length (mm)	Width (mm)	Packaging
150	90	5 per 4L Bucket
