

## CUTTABLE SUPPORT

## JENNMAR PLASTIC PLATES

## Features

- Used as coal rib surface support where extraction involved cutting the support
- Compatible with Jenanmar 22mm dowels
- Flexibility of all plastic allow conforming to shape of uneven coal rib
- Tested to ensure no splitting under severe deformation found in uneven coal ribs
- Square plate is designed to visually turn corners upon applying hydraulic rib bolter thrust
- Do not store these products in direct sunlight

Shape	Dimensions (mm)	Hole Diameter (mm)	Collapse Load (kN)*	Pull Through Load (kN)*
Round	230 diameter	33	>6	>20
Square	230 x 230	33	>6	>12

\*Compression tested over a 150mm span to simulate soft coal ribs

**Packaging:** Standard Pack = 500
