

## PLATES &amp; W-STRAP

**TRUSS PLATES****Features**

- For use with 63t capacity SUMO and TG cable bolts for the angled members
- For use with 2 x 25t capacity 15.2mm cable horizontal members
- SUMO and TG cable installation angles up to 17 degrees, which suits typical hydraulic bolting rigs
- Lower profile and lighter weight than most high capacity truss plates
- Grout indicator holes are present for top-down grouting applications

Dimensions (mm)	Thickness (mm)	Hole Diameter (mm)	Load Capacity Horizontal (tonne)	Angled Compressive Load* (Tonne)
300 x 300	14	46	25	55

\*Tested over a 150mm span
