

CUTTABLE SUPPORT

JENNMAR PLASTIC PLATES

Features

- Used as surface support where extraction involved cutting the support
- Compatible with Jenmar 22mm dowels
- Flexibility of all plastic allow conforming to shape of the ground
- Tested to ensure no splitting under severe deformation found in uneven ground
- Square plate is designed to visually turn corners upon applying high feed pressure

Shape	Dimensions (mm)	Hole Diameter (mm)	Collapse Load (kN)*	Pull Through Load (kN)*	Compatible Dowel Diameter (mm)
Round	230 diameter	33	>6	>12	22mm TENSIONABLE
Square	230 x 230	33	>6	>12	22mm THRUST

*Compression tested over a 150mm span to simulate soft coal ribs

Packaging: Standard Pack = 500
