

Industrial Mesh

358 Security Mesh

Features:

- Applications include airports, power stations and correctional centers
- Robust anti-scale anti-cut mesh
- Low maintenance and durable
- Allows good visibility for perimeter surveillance
- Made from high tensile steel
- Superior corrosion resistance due to Galfan coating
- Can manufacture custom sizes MOQS apply
- Stocked sheets are all 2400 mm wide, heights vary: 2400, 2500, 3000, 3600, 4500

Property	Typical Value
Wire Diameter (mm)	4
Tensile Strength (kN)	5.6 - 7.5
Aperture (mm)	75.0 x 12.5
Wire Grade	AS4671 Grade500L
Coating (Galfan / Bezinal)	AS 2423 - Class W10 (Test A90-A90M-11 ->260 g/m ²)
Welding	AS1304 : 1991 Weldshear strength > 350 KgF
