

# Industrial Mesh

## Weld Mesh

### Features:

- Multiple wire diameters from 2.5 to 5.6 mm
- Available galvanised or Galfan coated on request
- Customised meshes (minimum order quantities apply)
- Trimmed edges for safety by removing overhanging wires

Property	Typical Value				
Wire Diameter (mm)	2.5	3.15	4.0	5.0	5.6
Tensile Strength (kN)	2.6	4.05	6.5	10.2	5.8
Apertures	Multiple options from 25 mm to 100 mm				
Wire Grade	AS4671 Grade500L				
Coating	AS2423 - Class W02Z (Test A90-A90M-11) > 40 g/m <sup>2</sup>				
Welding	AS1304 : 1991 - Weldshear Strength > 100 KgF
